1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 7, 2008 has been entered.
2. Claims 2-4, 6-10, and 18-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 19 and 20, the use of the word, "derivable", renders the claims indefinite. The suffix, "-able" (derivable, obtainable, preparable, etc.), when recited in conjunction with a process renders the claims indefinite, since it is not possible to determine with certainty when such a claim is infringed; i.e., exactly when a product is "able" to be made by the claimed method and when it is not.

Within independent claim 24, the word, "dihydroxyalkylene", has been misspelled.

3. Claims 2-4, 6-10, and 18-24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Adequate support has not been provided for the inserted "dihydroxyalkylene" and inserted proviso limitations of claim 24. Despite applicants' response, it is by no means clear that applicants were in possession of the instantly claimed subject matter at the time of invention.

Art Unit: 1796

Firstly, it is not clear from exactly where support stems for the amended subject matter.

Secondly, if applicants intend support to stem from the use of aminoethanol and 3-amino-1,2-propanediol within the examples, then the position is taken that such limited examples fail to provide support for the full scope of subject matter encompassed by the claims, as amended.

Any inquiry concerning this communication should be directed to R. Sergeant at telephone number (571) 272-1079.
